

Be specific in your descriptions- including what tools you use for each step and where you click etc.

- 1) How do you create a straight edged shape?

- 2) How do you create a curved shape?

- 3) What are the 'Past and future' handle bars?

- 4) How do you remove the future handle bar to control the next curve more specifically?

- 5) How do you lock a layer?

- 6) How do you place a jpeg in illustrator?

- 7) How do you make your path no fill and change the color of the stroke?
