

VA Focus/ AP Studio- Artist Trading Card Project

After a year of creative work, and several years creating along side your peers, it is time to document what you've done and share it with one another.

Create a minimum of 9 artist trading cards by photographing/scanning your original work and formatting onto an 8.5 x 11in image on Photoshop. (you can edit images and make them new, or simply format them into the 2.5 x 3.5 format of a trading card).

Use grid/ruler to set up your format- Make sure you have all your images saved on a USB drive or in your documents. Open images in Photoshop. Create a new image titled "Artist Trading Cards" and use move tool to drag your images into your new document.

Print cards onto card stock (in color) and sign the back with contact info (if you would like to stay in touch with your peers- could be a web address for where you showcase your work, email etc.)

We will have a ATC Trading Event during our end of the year party.
